PROFESSIONAL SUMMARY

Results-driven Full Stack Developer focused on building scalable, high-performance web applications using JavaScript, React.js, Node.js, and Express.js. Skilled in developing responsive interfaces, robust RESTful APIs, and efficient database solutions with MongoDB and SQL Server.

TECHNICAL SKILLS

Languages: JavaScript

Frontend: React.js, Responsive UI, Reusable Components

Backend: Node.js, Express.js, RESTful APIs, Web API

Databases: MongoDB, SQL Server

Authentication & Security: JWT, Authentication, Role-Based Access Control (RBAC)

Integrations & Services: Stripe, Razorpay, Nodemailer, Twilio (SMS & Call)

Stack: MERN (MongoDB, Express.js, React.js, Node.js)

Concepts: CRUD Operations, Payment Gateway Integration, Admin Dashboards, Email/SMS Notifications, API Integration, Full Stack Application Development

TRAINING

Full Stack Development

2025

CS InfoTech

Chandigarh, India

- Completed hands-on training in full stack web development covering JavaScript, React.js, Node.js, Express.js, MongoDB, and SQL Server.
- Built practical MERN stack projects applying RESTful API design, authentication, database management, and responsive UI development.

EXPERIENCE

Full Stack Developer Intern

2026

VproTech Digital

Mohali, India

- Worked as a Full Stack Developer Intern on web application development using React.js, Node.js, Express.js, and MongoDB.
- Assisted in building responsive user interfaces and integrating them with RESTful APIs and database-driven backend services.
- Collaborated with the development team to implement features, resolve bugs, and follow clean, maintainable coding practices.

PROJECTS

University Commerce Management System | *MERN Stack*

- Developed a full-stack e-commerce platform using MongoDB, Express.js, React.js, and Node.js for managing and purchasing university-related products.
- Built secure RESTful APIs for managing users, products, orders, authentication, and application data with role-based access control.
- Integrated Stripe Payment Gateway for secure online payments and automated order confirmation.
- Implemented Nodemailer and Twilio APIs for email, SMS, and call notifications related to order activities.
- Connected the React.js frontend with backend REST APIs and MongoDB to deliver a secure, scalable, and well-structured application.

Job Search & Recruitment Platform | *MERN Stack*

- Developed a full-stack recruitment platform using MongoDB, Express.js, React.js, and Node.js with dedicated workflows for jobseekers, recruiters, and administrators.
- Implemented JWT authentication and role-based authorization, securing access to candidate, recruiter, and admin modules.
- Built complete job and application management, including job posting, advanced job browsing, applications, favorites, candidate profiles, resume uploads, and application tracking.
- Integrated Razorpay payments and recruiter CV credit packages, enabling recruiters to purchase credits and securely unlock candidate resumes.
- Developed a comprehensive Admin Dashboard with user, recruiter, job, application, company, payment, package, analytics, reports, commission, and platform settings management.

ACHIEVEMENTS

- Developed multiple end-to-end MERN stack applications with secure authentication, role-based access control, and third-party payment integrations (Stripe, Razorpay).
- Built complete admin dashboards and multi-role workflows (jobseeker, recruiter, admin) covering analytics, reports, commissions, and platform settings.

EDUCATION

Kurukshetra University

Kurukshetra, India

Bachelor of Commerce (Honours)

2026

CBSE

India

Higher Secondary (12th), Commerce

2022
